

Confirmation of Club Registration With The NFAS

To comply with the requirements of NFAS Registration, one of the registration criteria is a club must have a minimum of 3 members registered to it. Should the club fall below the minimum of 3 members for 2 consecutive years, the club will be removed from the club register.

The undersigned will be registered to the new club for initial registration purposes. Each member will receive a new NFAS card relating to the new club (if there are 3 months or more membership remaining on their existing card). This means that the undersigned will forfeit registration to any club they may already be registered to.
