

## Lyme Valley Archers – Open Shoot – 9<sup>th</sup> August 2009:

Report By – Jon Bagnall

Well, Summer finally arrived, just in time for the wood to dry up and to allow us to finish all our preparations. On the day 185 people turned up to shoot our second Open of 2009, consisting of mixed Game Faces and 3Ds, including the famous Grizzly! We decided to shoot the wood the other way round for this one, having realised that we had shot the same way round for the last couple of years. This gave us the opportunity to open up some old shots and add in some new ones, all of which meant it was a little bit different for most people.

All the comments we received at the end of the shoot lead us to believe that we had once again achieved our aim of providing a course that anyone in the NFAS could shoot and enjoy, so thanks for all the positive feedback. Thanks also to all of the Club members who, again, gave their time to help plan and lay the course, construct new and restore old paths and steps, as well as marshal the course on the day. Like all clubs we couldn't do this without the support of all of our members.

Finally, but by no means least, a big thank you to all the ladies who fed and watered all the archers throughout the day. Like running the course itself, catering is a big team effort and again from the comments received, we seem to be getting this one right as well.

If you all enjoyed being here as much as we did having you, then we hope to see you all back next year.

In the meantime, good shooting.
