

Osprey Archers Fun Shoot 28th September 2008

Around one hundred archers gathered on a fine day for our annual 2 by 20 target fun shoot. Once again we had several double 3D targets, the farther target to be shot on the first circuit and the closer to be shot on the second circuit, the archer losing 10 points if the wrong target was hit.

This format seems to be popular with the archers as we had several appreciative comments although it was suggested that the positioning was sometimes a bit challenging, the kill of the farther target only just visible past the closer target.

We had a casualty on the day, the turkey suffered a broken leg needing a splint and crutch to make it until the end of the shoot!
