

Westcombe Field Archers

14th September 2008

Results (Paper Faces)

Yes we managed it we had booked the weather for the shoot and with a small walk to the tea tent and registration, the shoot started at 10. Throughout the day competitors were heard saying “ this is a easy 20 yards shot, followed by where did that extra 5 yrds come from!” Jonn Cramman and Brian Brown had made use of all the dead land and visual tricks. Even with the bright spots they seamed to be unable to be hit the pro kills. Most people stated that this was a great course prior to the nationals and hope that the nationals put on the same standard of courses.

The catering was run well with the female clan cooking and ensuring that there was enough food for all during the day thank you to all that helped.

The Booking in and scoring went well with a small wait at the end before the medals were awarded to the winners, that had achieved some high scores with the compound limited class having to have a count back with the only difference between them was in the amount of 20's

The day closed with everyone happy with about the only day of sun this year, and the club hope that we see all again in our next shoot in 2009.
