Printed Materials

Paper

A standard weight blue back paper offering excellent print quality. Printed to a sheen finish, these faces would need to be pasted to card.

Self Adhesive Paper

A slightly heavier weight blue back paper, again offering excellent print quality. Printed to a sheen finish, these faces are self adhesive and can be mounted to pre cut card therefore removing the need to paste them.

Mesh

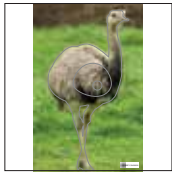

The deluxe material. Printed mesh offers a high quality print finish although finer detail is lost due to the make up of the material. However, on field testing, these faces have lasted up to 2 years so are far more durable than paper faces. In some cases, these do not need backing with card and target pins can be used to attach them direct to the boss.
