

Wolfshead Field Archers - 1st September 2019

Thank you to everyone who joined us for our last open shoot of 2019. We hope that you enjoyed yourselves and look forward to seeing you again.

The weather on the day was generally good, and the couple of light showers didn't appear to dampen the enthusiasm of the competitors. Once again competition in several of the classes was very close. The course comprised 39 3-D targets and our 2-D elephant, including a multi-target shot, a predator/prey target and a couple of 'wasp' pegs. An innovation for this shoot was our new 'bee' peg.

Thanks to all the club members whose efforts as marshals and in the kitchen made the shoot possible. Particular mention also to those volunteers who laboured to clear the course of bracken and holly, which had grown so much during the very warm and occasionally wet weather of the summer.

We look forward to welcoming old friends and new at our next shoot on the 23rd February 2020, where you'll be able to experience shooting a variety of woodland and moorland targets in the beautiful surroundings of the North Yorkshire Moors National Park.
