

NFAS NEWSLETTER SHOOT REPORT FORM

Host Club	Seedfield Archers	
Shoot Date	20 th October 2019	
Report produced by	Geoff McSweeney	
<p>As with most of the country during the week leading up to the shoot the heavens were open and torrential rain was giving us a good soaking, fortunately the weather improved on the Saturday so at least we could put the course out without being soaked, however we had to hastily change a part of the course as the area wouldn't have survived the slipping & sliding of 73 archers moving between targets. From the comments received the change turned out to be acceptable with the exception of the aptly numbered target 13 which seemed to 'steal' arrows that passed over the back of the animal, hopefully all arrows were found and returned to their respective owners. As in our previous shoots the scout manager Ann kept everyone fed & watered and also provided a nice and warm room to enjoy breakfast and lunch in. Hopefully see you all next year at some point - best regards Geoff.</p>
